HEALTH AND ILLNESS POLICY

Our children's health is very important to us. As we begin the new school year, it is expected to see some runny noses, coughs, or general fatigue. We have been seeing fevers as well. A fever is contagious, and as such we will notify you by phone call if your child becomes ill and needs to be picked up. We ask that all children be picked up within 30 minutes. Please make alternative arrangements now for when your child does need to be picked up and you are busy or can not do so. When children are sent home from school they may not return on the subsequent day. **Children that are sent home, must be symptom free for a minimum of 36 hours before they may return to school.** We follow State and County regulations as well as the guidelines set by the American Public Health Association (APHA), American Academy of Pediatrics (AAP), and the Centers for Disease Control (CDC). Please refer to the Parent Handbook for a full list of health conditions and symptoms that warrant exclusion from school.
